

# HOPING TO RECOVER BODIES OF THE DEAD

Canadian Pacific Railway Officials May Raise Hull of Wrecked Steamer.

## ECHOES OF THE DISASTER TO EMPRESS OF IRELAND

Inquiry to Fix Responsibility for Collision Probably to Begin in Ten Days.

MONTREAL, June 2.—The news that Lord Mersey, who presided over the inquiry into the loss of the Titanic, is to be a member of the royal commission appointed to investigate the Empress of Ireland disaster was received here with satisfaction. As Lord Mersey was president of the Titanic court, it is assumed that he will be similarly honored when the royal commission meets here. The Canadian members of the commission are Chief Justice McLeod of New Brunswick and Sir Adolph Rutherford of Quebec.

The commission will be assisted by two nautical assessors, a marine engineer and a naval architect. Appointments for these positions have not been made, but it is understood the Canadian government has in mind a number of men from whom to choose.

Just when the commission can begin its work is still undetermined, but it will probably not be possible to hold the first sittings for about ten days.

### Inquiry of Wide Scope.

The sittings will be held at either Montreal or Quebec. The inquiry will be of the widest scope and the government will be represented by counsel. It is announced as it is probable there will be a discussion on rules of navigation in Canadian waters.

Another change has been made in the number of dead. The latest figures, given out in an official statement by the Canadian Pacific Railway Steamship Company, shows that 1,027 persons perished as a result of the collision between the Empress of Ireland and the collier Storstad. The company has learned that there were 1,476 persons aboard the Empress instead of 1,587, as heretofore stated, hence the increase in the death list. The total saved is now given at 452.

### Statement by Superintendent.

Capt. Walsh, marine superintendent of the Canadian Pacific railway, arrived here today and after looking over the situation issued the following statement: "The Canadian Pacific railway will not relax its efforts in its power in looking after all the bodies it may be able to get. No effort on its part will be spared in this direction. "With regard to the possibility of raising the Empress of Ireland, the best possible expert opinion is being sought. Until this advice is secured we are unable to give any personal opinion of the matter. I do not know as yet what can be done. "Complete patrol of the coast from Rimouski to Montreal has been established by picked men sworn in as Canadian Pacific railway special constables, under the charge of a special officer, to forward any information they may be able to secure as to bodies that may be found in the water or the recovery of personal effects. "Capt. Walsh stated that the Canadian Pacific would make every possible effort to secure the bodies of those who perished in the sinking ship. If it was humanly possible, he stated, to bring the vessel to port where the bodies of the victims could be removed neither labor nor expense would be considered.

### Rescues by the Storstad.

Capt. O. Lange, Montreal agent of the Maritime Steamship Company, owners of the Storstad, in a statement declared that of about 450 persons who survived the disaster 350 were cared for on the Storstad. Of these 225 were rescued by the crew and boats of the Storstad, while thirty others rescued by the Storstad's men were placed on board the government steamship Eureka, the statement adds. The lifeboats of the Empress of Ireland are credited with saving 125 and bringing them on board the Storstad.

### Will House U. S. Workers.

#### Ground Broken for Building Near Department of Agriculture.

Ground has been broken south of the Department of Agriculture building for a new structure, which, although not owned by the government, will house a considerable portion of the Department of Agriculture's work. The new building is scattered in inadequate quarters, some government owned and some rented. The new building is on the south side of B street facing west, and covers an area of 50,000 square feet of floor space. It is intended now to move the forest service from the Atlantic building, on F street, which it has occupied for years, and to utilize the new building in housing the department library, the biological survey and the division of markets, which is now in a portion of the new rented building on 14th street opposite the bureau of engineering and mining. The new building will cost about \$200,000. It is expected to have it ready for occupancy next December.

### "Movie" Men to Select Delegates.

At a meeting of the Moving Picture Exhibitors' League, to be held tomorrow afternoon in the Perpetual Building Association hall at the corner of 11th and E streets northwest, seven delegates to the national convention at Dayton, Ohio, are to be chosen. The convention is to be held during the week of July 5 and motion picture exhibitors from all parts of the United States are expected to be in attendance at the sessions.

Sold by retailers everywhere.

# HOLDING U.S. BOUND BY TREATY TERMS

Senator Simmons Argues for Repeal of Bill Exempting Coastwise Shipping.

## INSISTS PRESIDENT TAFT DID NOT FEEL SECURE

Cites Willingness to Arbitrate as Evidence of Weakness of Contention.

A carefully prepared argument in support of the Panama canal tolls repeal bill was made in the Senate today by Senator Simmons of North Carolina, who has been leading the fight for repeal. Senator Simmons answered in detail the objections which have been raised by the opponents of repeal. He contended that the provisions of the Hay-Pauncefote treaty the United States is bound to give equal treatment to the vessels of all the world, including the United States. He contended, too, that to permit the exemption of American coastwise vessels would not only violate the treaty, but that it would work a discrimination against vessels of other countries, notwithstanding the fact that the coastwise trade of the United States is by law restricted to American vessels.

"When the canal is opened the Pacific coast will buy its coal," said Senator Simmons, "let us say, either from Wales or from some Atlantic coast port of the United States. If from Wales, it will have to be transported in a foreign vessel or in an American overseas vessel, and will be required to pay tolls. It shipped from an Atlantic port it will pay no tolls through the canal."

### Thinks Taft Was Doubtful.

Senator Simmons said that former President Taft had been cited as a great lawyer, who believes the United States, under the treaty, has a right to discriminate in favor of American coastwise trade.

Former President Taft had no misgivings as to the correctness of this opinion," said Senator Simmons, "why did he supplement his approval of the canal act of 1912 with a memorandum suggesting the passage of an act by Congress submitting the question of our right to make this discrimination to the Supreme Court of the United States for its advice and decision? If he had no misgivings, why did he submit this question to the Supreme Court? He submitted it in New York last January of his willingness, even eagerness, to submit this question to arbitration?"

### Obligation to Panama.

Continuing, Senator Simmons said: "Elaborate arguments have been made to show that we owe the Canal Zone, that our title to the canal is complete, I suppose the argument is that we owe the Canal Zone, and I have no disposition to raise the slightest question about our sovereignty over it. Let us dismiss all questions about the title of our title and sovereignty over the Canal Zone. Still the question remains, how did we get that title and acquire that sovereignty? The \$10,000,000 paid for this strip of land is a mere bagatelle compared with its actual value. The payment of this money was not the real consideration. The real consideration was the assurance and promise, ungrudgingly given by us and implicitly relied upon by Panama, that we would construct a canal through this strip and operate it in perpetuity on terms of entire equality to the interoceanic commerce of the world. This question has been discussed as if no body was concerned in the guarantee of equality except Great Britain. Even Panama's rights have been ignored. That is why the map of the Great Britain and Panama alone have contractual rights in this behalf, it is true, but all the world, under the terms of the treaty, are joint beneficiaries of the guarantees made to these two countries."

The repudiation of these pledges, Senator Simmons said, would discredit the United States throughout the world, and would affect unfavorably our commercial and political relations.

### Demand for Equal Treatment.

"It is said that the protest of Great Britain against our action in this tolls matter is a denial of our right to exempt our vessels from toll," said Senator Simmons, "and is therefore an impeachment of our right as the sovereign of the territory and owner of the canal. There is no foundation for these suggestions. Great Britain does not deny our rights to exempt our vessels from tolls; her position is exactly the reverse; she admits that right, she simply says, if we shall not exercise that right, and exempt our vessels, that we have entered into a binding agreement with her to exempt hers also. Is that an impeachment of our sovereignty?"

### Cincinnati Fans Will Give Players That if They Win Pennant.

CINCINNATI, June 3.—If Charley Herzog can pilot the Reds into their first championship the now thoroughly aroused fans of the city will donate to them a twenty-five thousand dollar purse to be divided among the heroes.

The recent work of the rejuvenated Reds has aroused the fans to such intense excitement that nothing but base ball and the Reds are talked of these days. There is one "bug" in ten days here who does not treasure a sight of seeing the local club paired off with an American League entry next fall in the world's series. Although it is a long way to October, Cincinnati fans are confident that they have at last secured a club which will bring home the "babeen."

The attendance at the local games to date has broken all records, and Garry Herrmann and his associates will take the biggest million in the history of the club if Herrmann's protégés can maintain their present dizzy pace.

### Former Big Leaguer Dead.

BAKER, Ore., June 3.—Father J. J. Murphy, a Catholic priest, formerly a member of the Detroit American League team, died here Monday night. He was forty-three years old. From college he went to the major league base ball club and won honors, later retiring to take up the priesthood. He came to Oregon two years ago.

# Every Department in Line With Its Strongest and Best Values for a Record-Breaking Thursday Bargain Sale

**Men's 52 Balbriggan and Gauze Cotton Underwear; full 52 gauge garments; shirts with short sleeves and ankle-length drawers. Sale price.... 35c**

## 40-inch White India Linon

**Regular 19c Grade at 11c**

This dainty white material owes its popularity to the fact that it is sheer and fine, and comes from the wash tub fresh and new. Made of selected combed Egyptian yarn, soft, fine and smooth, bleached snowy white.

The width—40 inches—is another desirable feature. Tomorrow we will sell this regular 19c quality for 11c a yard.

**36-inch White Pique, heavy raised welt quality; for skirts and suits. 12/2c**

**40-inch White Irish Linon-Finish Cannon Cloth, a superior round thread grade that can hardly be distinguished from the all-linen suitings. Regularly 25c. 18c**

## Men's "Porosknit" Garments for Men and Boys

This widely advertised and popular underwear for men and boys is made of open mesh, soft, absorbent yarn, that keeps you cool by absorption and evaporation of perspiration. Your pores breathe the needed air. The yarn's softness eliminates irritation of the skin.

If you want to go through the hot weather with that feeling of comfort and coolness secured from the proper underwear buy a supply of "Porosknit." The cost will be no more than you would have to pay for inferior garments.

We carry a complete stock of "Porosknit" underwear for men and boys. The Union Suits are especially comfortable. Every garment is carefully made, with reinforced seams, double seamed by cover seaming, extra stitches everywhere.

**Men's "Porosknit" Underwear—shirts and drawers—50c a garment.**

**Men's "Porosknit" Union Suits—\$1.00 each.**

**Boys' "Porosknit" Underwear—shirts and drawers—25c a garment.**

**Boys' "Porosknit" Union Suits—50c each.**
